

Succeeding in Math Class

What You Can Do *In* Class to Be Successful

- Sit near the front
- Attend class
- Take good notes; write down examples
- Ask questions
- Get to know other students
- Arrive early and preview material
- Stay and review if class ends early
- Attend optional/review classes
- Listen to questions other students ask
- Review assignments and tests to understand why you got problems wrong

What You Can Do *Outside* of Class to Be Successful

- Have appropriate tools – calculator, graph paper, etc.
- Practice basic fa
